## **To Our Youth AN EDUCATIONAL OPPORTUNITY**

The United States of America is preparing to inaugurate the 44th President, Barack Obama, on January 20, 2009. This historic moment is an opportunity for young people to witness first-hand what happens when diverse groups of people participate in the political process.

We are encouraging schools and families to witness this historic moment by watching the President-elect take the Oath of Office at the ORACLE Arena's big screens. The event will help to further educate young people about the value of civic engagement and community service. We hope that by attending the inaugural celebration young people will be inspired to get involved in their communities and help make a positive change.

**People of all ages are invited to attend  
the Inauguration Day Celebration at  
the ORACLE Arena.**
